Emily confirmed the home is still standing and Mark said there is still not a signed agreement between the two parties. Fred said he had heard Martin Marrietta wants to begin mining by September 15.

b. 3848 E 106th St (Blue School) update

Mark said it was a good sign that a representative of the church came to the meeting last month. Emily added that Andy Wright posted an article about the property on the Carmel Clay Historical Society Facebook page recently and hoped that it could raise more awareness of the building's history.

c. New Survey properties

Alex said he acquired more envelopes for the eventual mass mailing to the new survey property homeowners and hopes to get those out by the end of the year. Emily asked to confirm that these new houses would ultimately be eligible for the façade grant program, which Mark confirmed.

d. Façade grant website update

Alex said he is working to acquire the façade grant information for the website in light of his colleague who handled ArcGIS leaving Indiana Landmarks.

e. N. Rangeline Rd. designation

Alex explained the research he has done on the district, and then he and Mark explained what a historic district or a conservation district entails. Nick noted that there are some stipulations on this district currently. Barry asked if the ratio of residential to commercial would affect the work being done, and Mark said it could but did not think it should affect any designation, because the buildings were still designed as residential, even if later used for other things. Matt asked if some portions of Main Street southeast of this district could be included. Mark said they could but that has not been the area they have initially been tasked with designating.
